Stage 1

Develop a framework for creating a strategy

Identify Key Principles

Draft target outcomes for industry to consider

Stage 2

Seek feedback from stakeholders on draft targets

Understand perceptions of current state of play

Seek ideas on how to achieve targets

Stage 3

Integrate stakeholder feedback

Identify key opportunities to include in pathway

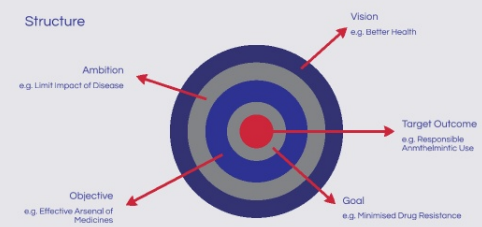

Develop pathway plan document with Defra's pathway team

Stage 4

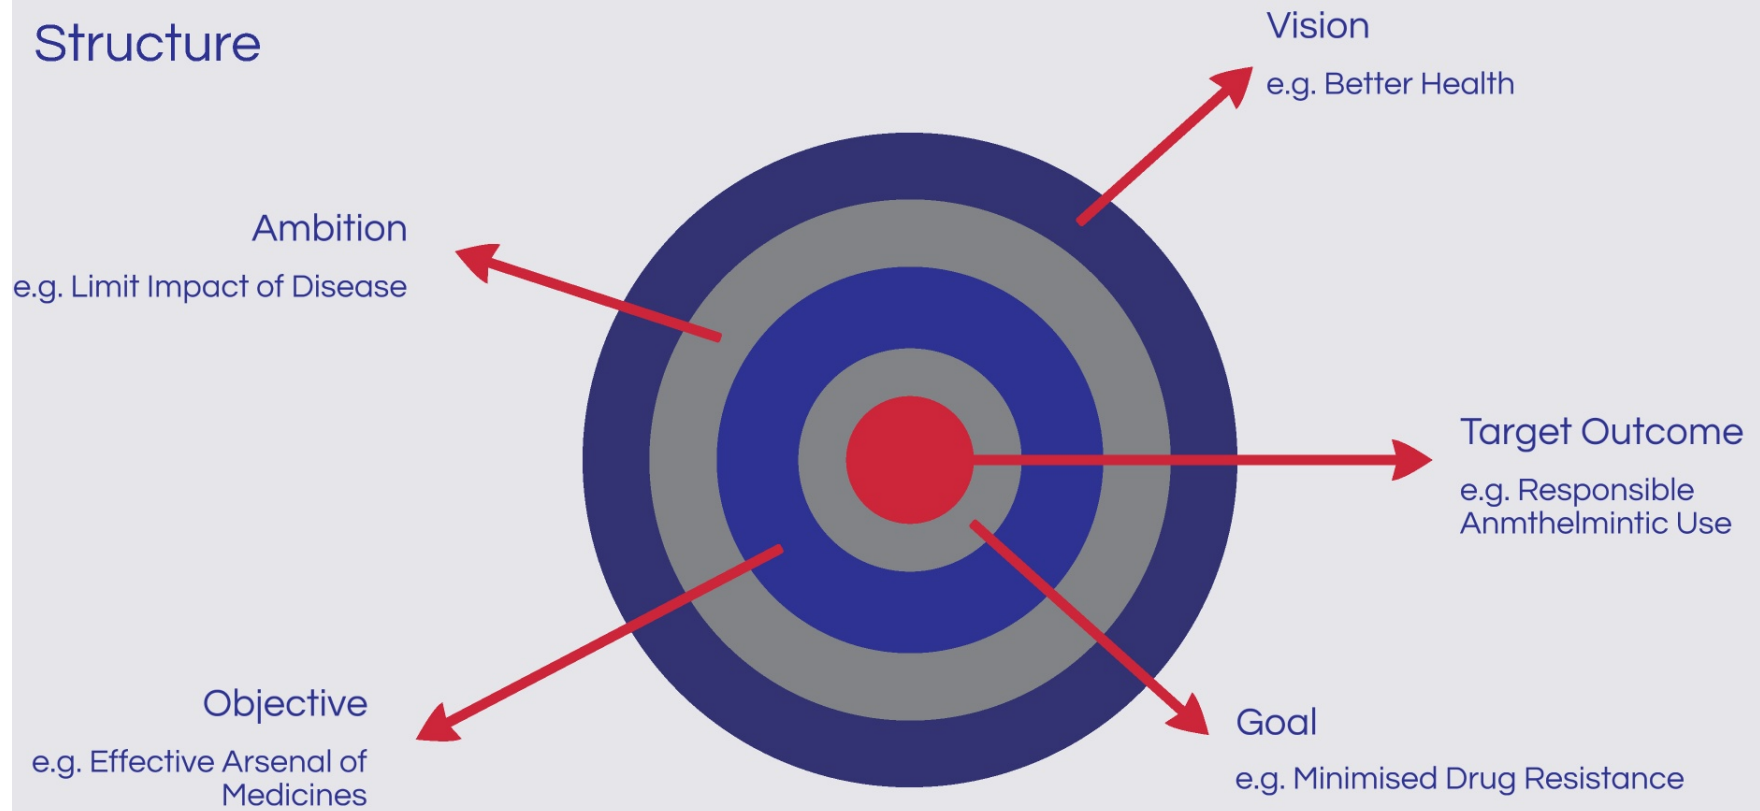

Work with Defra pathway team to get Government buy-in for proposals.

Implement pathway in collaboration with Government

Structure

Structure

Example

Limit impact of
Injury / Disease

Flexible medicines legislation (MUMS)	7	Static
Flexible medicines legislation (General Licensing)	5	Static
Strong pipeline of new medicines	4	Worsening
Responsible Use of Antibiotics	4	Improving
Responsible Use of Anthelmintics	2	Static
New microbe controls	2	Static
New helminth controls	2	Worsening
Skilled/accountable veterinary workforce	7	Static
Global leaders in veterinary care	8	Static
Sufficient veterinary numbers	7	Worsening
Accessible primary care	9	Static
Accessible referral services	8	Static
All services having adequate eqgt / facilities	8	Improving
World Class Equine Research in multiple UK Centres	9	Worsening
