Borders Survey

 BHC Borders Survey

New rules around the importation of horses from the EU are due to come into force in October 2024. We would like to hear your views to make sure that they balance biosecurity, welfare, trade, and practicalities. The new rules will mean changes in the procedures for crossing borders with live animals, including horses, from the EU to GB. For many consignments, this will mean stops and checks at Border Control Posts, as well as fees.

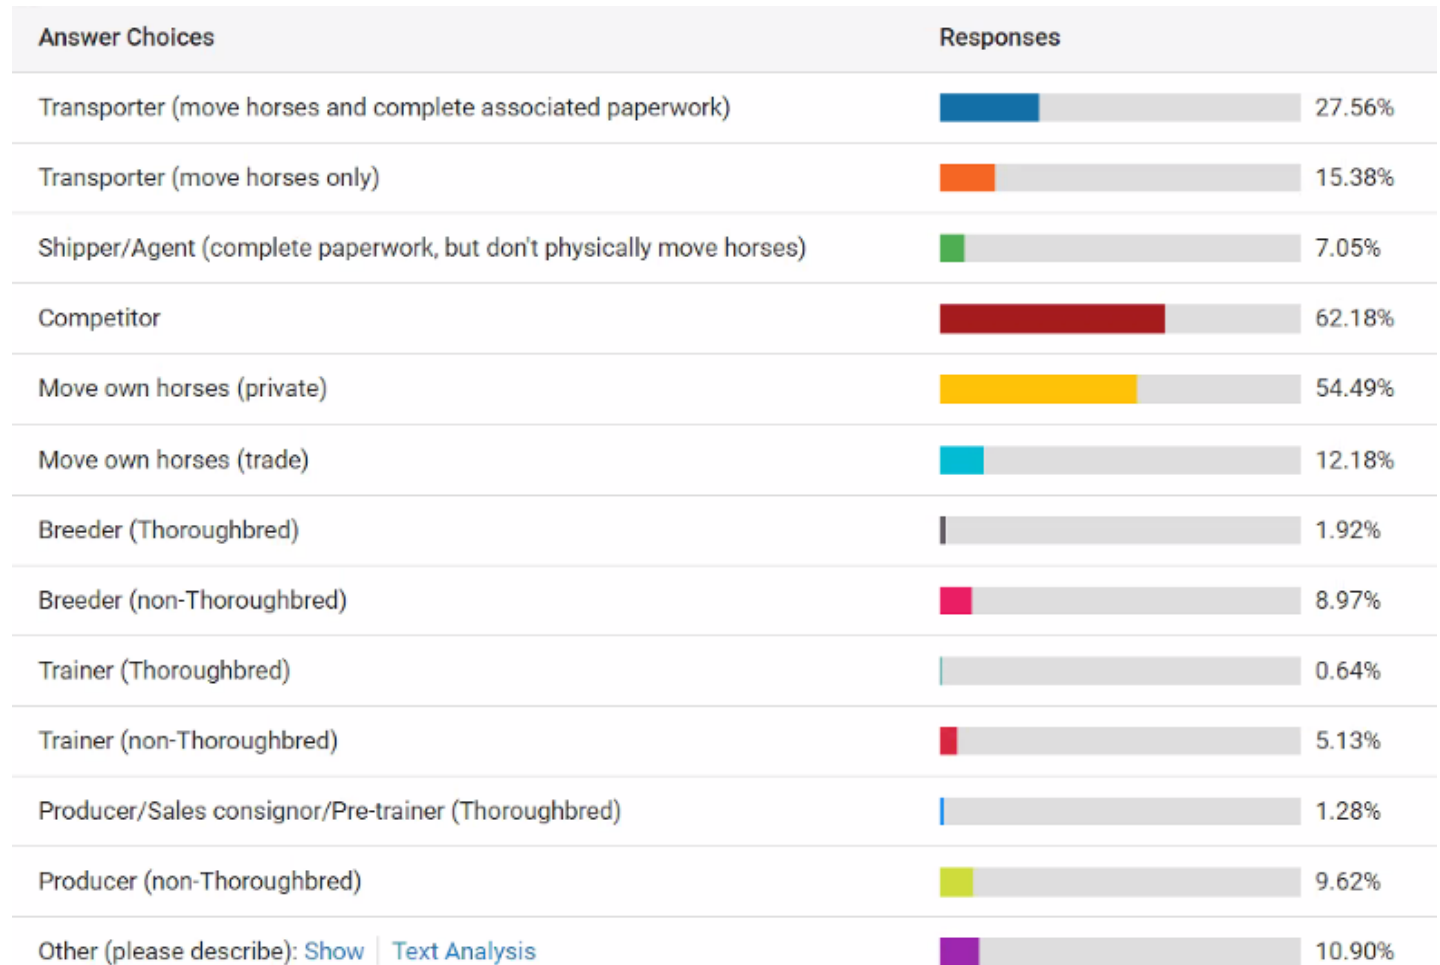

The survey will take around 10 mins to complete, with the results being used to help Government develop suitable processes for the implementation of borders processes.

www.britishhorsecouncil.org

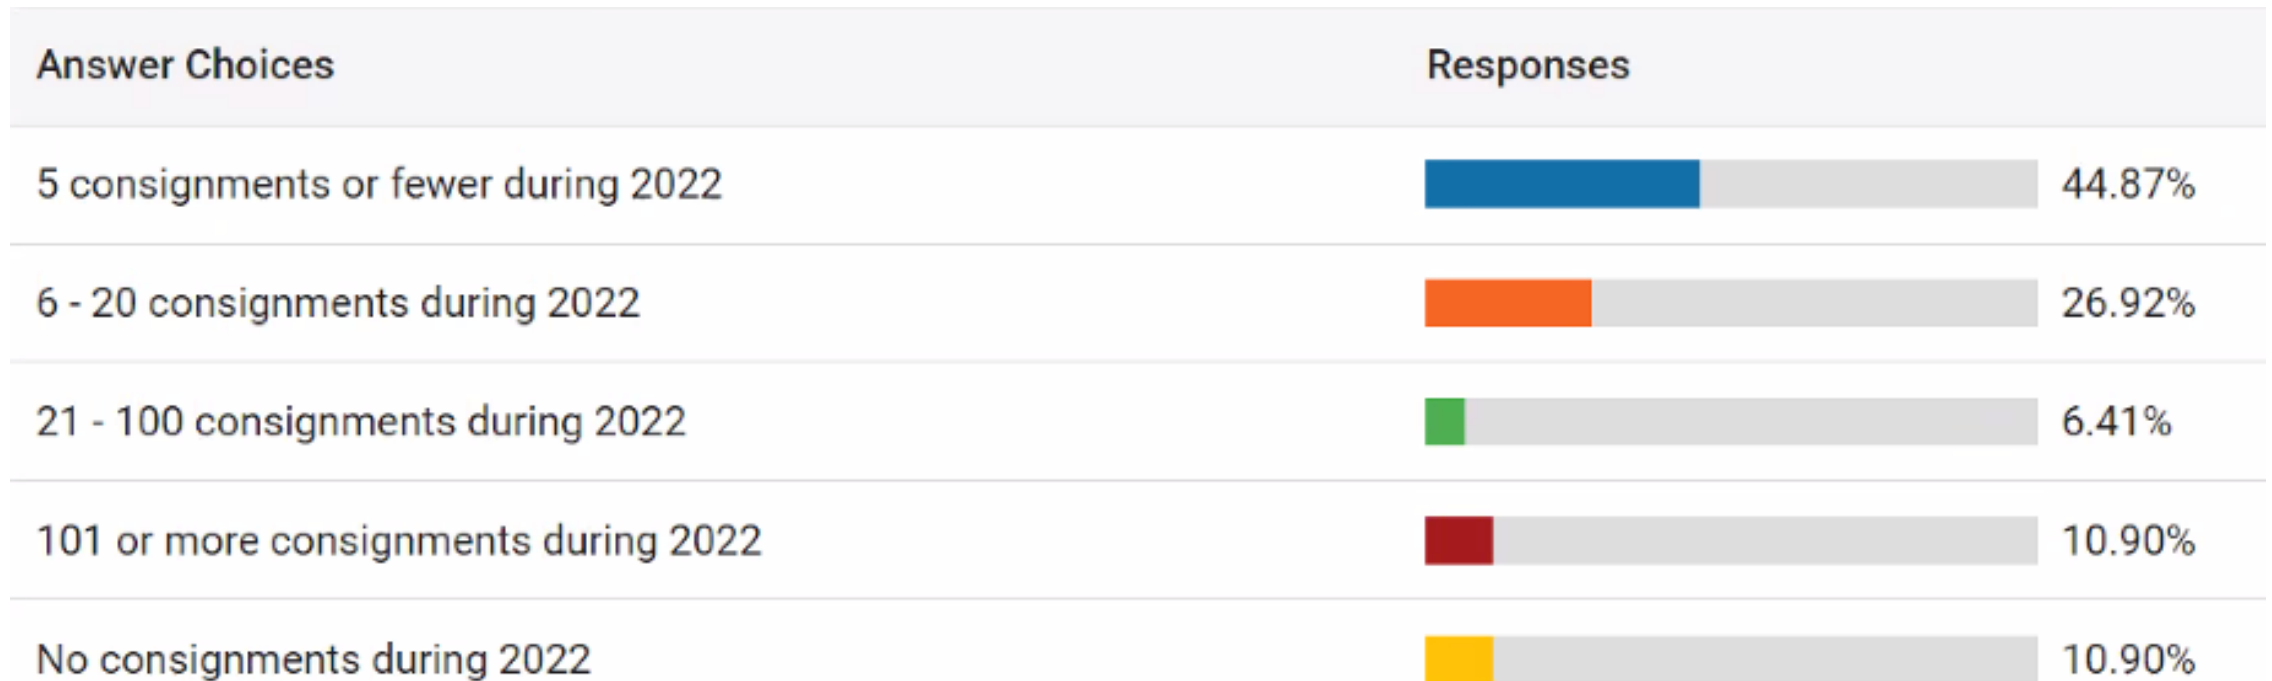

Where are
you located?

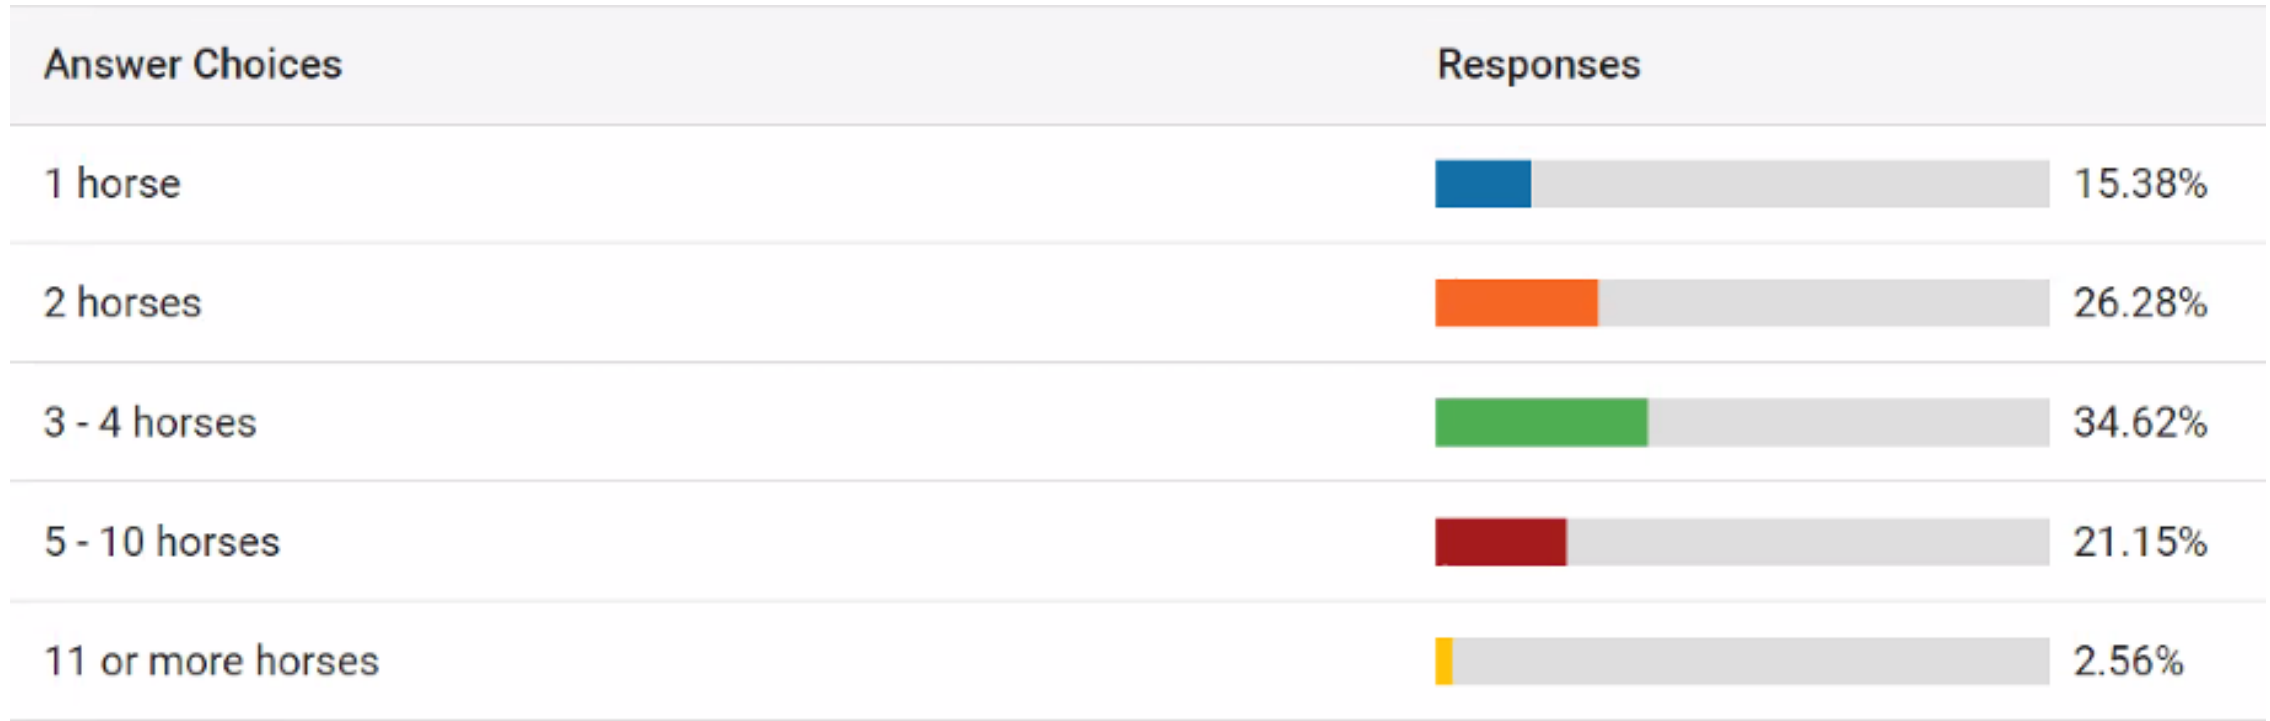

Which roles do you fulfil?

Number of consignments (no matter how many horses) respondents were involved in moving to or through GB during 2022, via road, rail or ferry (consignment is the word we have used to include loads, shipments or any other definition you may use)

As a rough average, horses included in each consignment

Import routes
used in 2022

Answer Choices	Average
France to England (Dover)	62.67
France to England (any other port)	13.87
Republic of Ireland to Wales (any port)	17.64
Northern Ireland to England (Birkenhead)	7.30
Northern Ireland to Scotland (Cairnryan)	8.93
Netherlands to England (any port)	4.96
