The Equine Industry in a Changing World will include a Parliamentary view of the status of the sector, the view from the Republic of Ireland and how the changing climate is impacting the equine sector.

Equine Health & Welfare Update will consider what we all need to do to be ready to protect our *Equidae*, including the latest information on infectious diseases.

Pre-purchase examinations will discuss what the new Seller's Declaration means for vets and purchasers, with perspectives from key stakeholders across the profession.

Technological Advancements will look at how AI (artificial intelligence) is being used to support equine welfare, including its advantages and disadvantages, and how it is working in practice through a case study.

The **Memorial Lecture** will explore the advancement of equine welfare in an international context. In addition, the winner the **Sir Colin Spedding Award** will be announced.
