

## **Message from Kym Cardona, DEFRA EU Delivery Programme**

At this stage, I'm afraid we're not able to share a written summary of the meeting, as the context and information discussed are evolving and a summary may not accurately reflect the current position.

However, I would appreciate it instead if you could direct your delegates to the latest information is available here: [SPS agreement: preparing your business - GOV.UK](#)

To make sure they're kept informed as updates are published, it would also be helpful if you could encourage your delegates to [sign up for Defra email alerts](#) and the [SPS readiness mailing list](#).

These channels will provide the most current and reliable information as it becomes available.
